

**ASSESSMENT OF HOME DELIVERY OF CONTRACEPTIVES PILOT PROJECT IN KOREA  
DISTRICT OF CHHATTISGARH STATE.**  
(Date of Visit-16<sup>th</sup> July to 20 July 2012)

**ABOUT District:** Korea is one of the North-West District of Chhattisgarh State. The District has derived its Name from the Korea State, the former princely State Korea. According to the 2011 census Koriya district has a population of 659,039. This gives it a ranking of 510<sup>th</sup> in India (out of a total of 640). The district has a population density of 100 inhabitants per square kilometre (260 /sq mi). Its population growth rate over the decade 2001-2011 was 12.4 %. Korea has a sex ratio of 971 females for every 1000 males,<sup>[3]</sup> and a literacy rate of 71.41 %. According to the 2001 census, the total population of the district was 586,327. Literacy rate was 63.1%, the male literacy rate being 75.7% and female literacy being 49.7%.

**Visited Health Institutes:**

District	17/7/2012	18/7/2012	19/7/2012	20/07/2012
District headquarter	On 16 <sup>th</sup> of the July debriefing with CMO and DPM			Meeting with CMOs and all programme officer
BLOCK CHC	Sonhat	Katghodi	Nawgoi	
PHCs	Manendragarh	Nagpur	Ujijarpur	
HSC	Khadgawan	PODIBACHHARA	Jilda	
Villages ASHA	3	3	2	

**The salient observation related to Home based delivery of the contraceptives are as follows:**

- 1) The district KOREA is the one of the selected district for the pilot project of Home delivery of contraceptives (Condoms, OCPs and ECPs) by ASHA at door step of beneficiaries. The CMO and district level officers including DPM (District Programme Officer) are unaware of such programme.

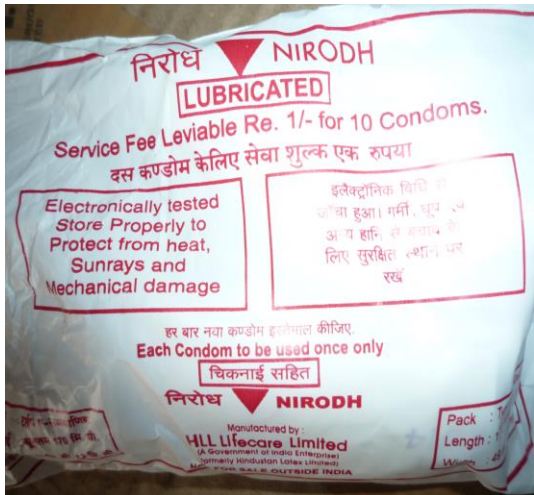

The programme guidelines are not received as told by CMO and District programme manager although even they are unaware of logistics received and available in store.

- 2) At block level, all BMO were unaware of such pilot project. The contraceptives are provided free of cost at HSC, PHC and CHC to the beneficiaries. Logistic under this programme is distributed to blocks and the distribution as per previous guidelines.
- 3) At PHC level the Medical officer are unaware of such activity and these are no discussed at block meeting.
- 4) At grass root level free distribution of contraceptives continuous to exist.
- 5) The logistics (condoms, ECP and OP) concerned to the pilot project received by district store but none of officers are aware of it for its implementation. All condoms and OC pills received under this programme were free distributed from block level due to lack of initiatives and direction.

GOI supply to District

Sr No	items	Received	status	Remark
1	Condom ( Batch No G61290)	25200	No register maintained. Status of distribution unknown	Block medical officers are unaware of guidelines and logistics
2	ECP( Batch No ep11-001)	2100	Distributed to 5 block	
3	OP (Mala N) (Batch No-11.078)	4200	Distributed to 5 block	

- 6) The record keeping of the present contraceptives stocks at block was not proper maintained at all selected blocks. The stock is not enters into the stock register of the Medical store and distributed to sectors equally without proper demand.
- 7) Teams has interacted with ASHA (So called mitanin in Chhattisgarh state) at Different HSC village, they are unaware of any such activities under this pilot programme.

*Two different types of condom packs (Rs 1 for 10 condoms and Rs 1 for 3 condoms)*

### HSC Verification:

- 1) Out of 12 permanent sterilization clients, 8 were traced and interviewed in the field area. No fake cases on the record among traced clients. Out of total traced, one case is sterilization failure after procedure (12/10/2011). 7 Clients were satisfied with the service provided by the health institute and staff.
- 2) **06 oral** pills clients were selected from 1 HSCs, of which 3 were traced in field. 1 client was **fake** on available record. Two subcenter are having no supply of OC pill since last two years.
- 3) 2 IUD users were contacted out of 3 selected. 2 were fake cases on record. HMIS report having more number of clients (4).
- 4) 5 condom users were selected for verification, 3 were visited in the field. **Out of three, two were fake clients.** All cases reported to HIMS are fake. Two subcenter are having no supply of condom since last two years (Jilda and Nawgoi). The eligible couple register is not available in this subcenter.

## **Conclusion:**

- 1) Initiation for implementation of the pilot project in the selected district (KOREA) of Chhattisgarh state to be taken.
- 2) State programme officer should conduct meeting of district programme officer in the identified districts for proper distribution of logistics as per requirement below primary health center level. The contraceptives supply already made by GOI, there is needed to channelize in proper way and proper sensitization of health care staff and ASHA.
- 3) There is need to develop the supply chain management of contraceptives under pilot project below block by the state as the delivery of the logistics received and there should be inbuilt system of the monitoring.
- 4) Focus on the IEC activities through posters, banners and wall writing in local language.
